

BUILD A STARTUP WITH TULANE UNIVERSITY RESEARCH AND TECHNOLOGY

The Tulane University Innovation Institute is seeking experienced entrepreneurs to lead new ventures with university-developed technologies. This six-month program connects high impact entrepreneurs with deep tech expertise to lead and build investment-ready startups.

PROGRAM HIGHLIGHTS INCLUDE

- **Ownership & Leadership** | Founders take the lead in forming and scaling the company with the potential for equity negotiation at the end of the six months
- **Technology Match** | Access to high-impact innovations
- **Scientific Expertise** | Tulane researchers provide technical knowledge to help founders focus on business execution
- **Market Validation** | Eligible founders lead customer discovery, revenue model development and go-to-market strategy
- **Mentorship & Networking** | Access to mentors, industry leaders, and Tulane's local startup ecosystem to accelerate success
- **Intellectual Property Support** | Guidance on intellectual property strategies
- **Paid Position** | 6-month part-time Entrepreneur-in-Residence (EIR) position
- funded by Tulane University
